

**2010 Redkite Scholarship Program  
MEDICAL REFEREE FORM**

Redkite has been supporting young people diagnosed with cancer for over 26 years. Getting through cancer can be tough and interrupt study, work and other areas of personal interest in a young person's life. We want to support young people diagnosed with cancer to get them where they want to go!

The Redkite National Dare to Dream Scholarship Program is specifically for young people who have, or who have previously had cancer.

To be eligible for consideration for a Redkite Scholarship, Redkite requires confirmation of the young person's cancer diagnosis.

**Please ask your GP, Oncologist, Care Co-ordinator or Social Worker to complete this form.**
